

The Most Reliable Solution of Air Filtration Products

Commercial | Industrial | Hospital | Gas Turbine | Paint Filtration Applications | Air Cleaning Equipment

Safety, Reliable **Environments**
Through High Performance Products

About Our Company

our Reliable Source for High-Quality Air Filtration

Since 2001, Venefilter has been a leading manufacturer of air filtration products, delivering exceptional quality and performance worldwide. With our extensive range of products and global presence, we are committed to providing premier air filtration solutions for any application. Trust in Venefilter to ensure clean, healthy air in your environment.

Comprehensive Product Range: Our broad range of filters caters to diverse applications, ensuring that you find the perfect filtration solution for your specific needs.

High Efficiency: Venefilter HVAC is designed to deliver unparalleled filtration efficiency, effectively removing contaminants, allergens, and particulate matter from the air.

Global Presence: With regional sales offices in Pembroke Pines, FL, Madrid, Spain, and a manufacturing plant and sales office in Valencia, Venezuela, we are strategically located to serve customers across the Americas, Europe, and the Middle East.

Reliability and Prompt Service: Venefilter is committed to providing prompt service and support to our customers. Our manufacturing facility in Valencia, Venezuela ensures that customers in South America receive efficient and timely service.

Industry-Leading Standards: At Venefilter, we adhere to the highest industry standards to ensure that our products meet or exceed all quality and performance requirements.

Distribution Network

Choose Venefilter: Your Trusted Partner in Air Filtration

With our premier brand of air filtration products and global presence, Venefilter is committed to delivering superior air quality and customer satisfaction. Contact us today and breathe easy with HVAC filter

Pembroke Pines , FL Regional Sales Office

Where corporate offices, extensive warehousing facilities are combined. provide prompt service to USA and Caribbean Region

MADRID SPAIN Europe Sales Office Our Spain facility serves our customers throughout the Europe and Middle East

Valencia , Venezuela South America

MANUFACTURING PLANT and sales Office Our manufacturing facility in s provides prompt service to our customers in South America

Helping Our PARTNERS Save Money

DELIVERY CLEAN AIR FOR HEALTHY PEOPLE AND PLACE

Optimizing the Performance of Buildings: Our high-quality, durable air filtration products ensure optimal air quality in every building.

Delivering Clean Air to Power Wellness: Protecting people, processes, and equipment by improving air quality.

Keeping People Healthy and Safe: Our air filtration products mitigate the spread of airborne pathogens and reduce exposure to VOCs and air pollution.

Ensuring Comfort and Wellness: Building confidence and peace of mind for employees and customers by providing clean healthy indoor environments.

Reduce Energy Use: Our regional area managers offer site surveys to help customers improve energy efficiency and reduce energy consumption costs.

Invest in Venefilter today and experience the benefits of clean and healthy air. Contact us now to discuss your specific needs, schedule a consultation, or request a product demonstration. Take the first step towards optimizing your building's performance and ensuring the well-being of your occupants.

Let Venefilter be your trusted partner in delivering clean air for healthy people and places. Together, let's create a better and safer indoor environment.

APPLICATIONS

- Airport
- Automotive
- Cannabis
- Clean Room
- Commercial
- Data Center
- Dust Collectio
- Education
- Firing Range
- Food Production
- Gas Phase
- Gas Turbine
- Hospital
- Hospitality
- Industrial
- Industrial Cartridge Filter
- Industrial Coating
- Microelectronics
- Mining
- Museum
- Pharmaceutical
- Sports Arena

HVAC TRAINING, TECHNICAL SERVICES, FILTRATION SOLUTIONS AND MORE...

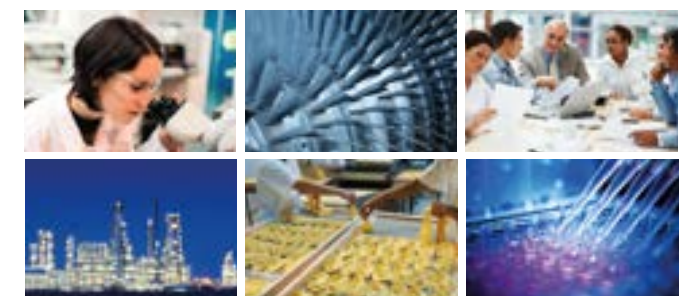

Full menu of Value-Added Service: Venefilter filter offers a comprehensive range of service to enhance the value we bring to our distributors and customers.

Filtration Training Seminars: We provide training seminars to educate our partners on filtration best practices and advancements in technology.

Site Surveys: Our experienced team conducts site surveys to assess filtration needs and recommend the most effective solutions.

Filter Life-Cycle Comparisons: We offer comprehensive analysis and comparisons of different filter options to help customers make informed decisions.

Other Field Service: In addition to training and surveys, we provide various field services tailored to meet customers' unique requirements.

Pre-Pleat Extended Surface Pleated Panel Filters

Pre Pleat Cardborad PP-KH
Standard Capacity
Efficiency G4 EN779

- Standard
- High performance synthetic media
- Durable waterproof Cardboard frame
- Available in a wide range of standard and custom sizes

Pre Pleat Cardborad PP-KH
High Capacity
Efficiency G4 EN779

- High capacity
- High performance synthetic media
- Low resistance to airflow compared to competitive models
- Available in a wide range of standard and custom sizes

Pre Pleat Cardborad PP-KM
Efficiency G4 EN779

- Standar Capacity
- Extend metal Mesh backing
- High dust holding capacity
- Low operating resistance to airflow

Pre Pleat Plastic Frame PP-PH
Efficiency G4 EN779

- Self supported pleated filter
- Standard and high capacity
- Available in 1" and 2" standard sizes
- Moisture resistant frame
- ABS Plastic Frame

Pre Pleat Cardborad MP-KN
Efficiency M6-F7-F8 EN779

- High capacity
- High performance fiber glass media
- Low resistance to airflow compared to competitive models
- Available in a wide range of standard and custom sizes

Panel HT PH-GH
Efficiency G4 EN779

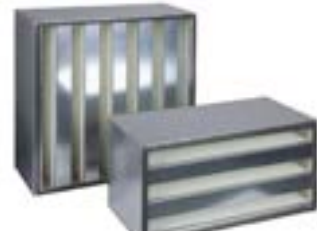

- High temperature applications 300 C
- Galvanized steel frame
- Heavy-duty fiberglass media
- Low pressure drop

High Efficiency Filters

Panel Rigid AS-XP
High Capacity
Efficiency M6-F7-F8-F9 EN779

- Micro fiberglass medium and high efficiency
- Rigid construction
- High temperature options available
- Multiple frame and header options

Mini Pleat WM-GP-40
High Capacity
Efficiency M6-F7-F8 -F9 EN779

- Micro fiberglass medium and high efficiency
- Mini Pleat Construction
- Galvanized Steel Frame
- Low pressure drop / Reduce energy cost

Muti Bag MB-GSH / GSL
High Capacity
Efficiency M6-F7-F8 -F9 EN779

- Low pressure drop / extended service life
- Progressively dense media
- Long record of proven reliability
- Steel Galvanized Frame

Muti Bag TF-GTH / GTL
High Capacity
Efficiency G4-M5-M6 EN779

- High efficiency minipleat filter
- Microfiberglass or synthetic media
- Low pressure drop
- Rigid Pocket

W Minipleat WM-PE/PS/PM
High Capacity
Efficiency M6-F8-F9 EN779

- High efficiency minipleat filter
- Microfiberglass or synthetic media
- Low pressure drop
- Reduces energy cost

PleatCell Plastic Frame PN-PL
Efficiency M6-F8-F9EN779

- Minipleat design
- High efficiency microfiberglass or synthetic
- Low pressure drop
- Reduces energy cost
- Plastic Frame

HEPA PANEL Filters

HEPA PANEL HP-GX-TP
High Capacity
Effic. E10-E11-E12-H13-H14 EN779
95%, 99.97%, 99.99% and 99.999% efficiency

- Multiple cell side options
- Standard and high capacity models
- Long service life
- Factory tested for efficiency

HEPA PANEL HP-MH-XP
MDF Frame.
E10-E11-E12-H13-H14 EN779
95%, 99.97%, 99.99% and 99.999% effic.

- Compact & lightweight
- Gasket or gel seal
- Low resistance to airflow
- Reduced energy costs
- MDF Frame

HEPA FLO HF-AN-DP
Aluminum Extruded
E10-E11-E12-H13-H14 EN779
95%, 99.97%, 99.99% and 99.999% effic.

- Minipleat design for low pressure drop
- Leak free sealant
- High dust holding capacity
- Aluminum frame

Carbon & Gas Phase Filters

W Mini Carb WC-G
High Absorb Capacity
Carb Activated Pellet

- Removes VOC's chemicals and contaminants
- Small mesh size carbon for high efficiency
- Low pressure drop
- Excellent polishing filter for high contaminants

W Mini Carb WC-PC
High Absorb Capacity
Efficiency F7 EN779

- Removes odors and VOC's
- Premium grade coconut shell carbon construction
- Multiple carbon options
- Excellent polishing filter for high contaminants

Carbon Ppleat GS
High Absorb Capacity
Efficiency G4 EN779

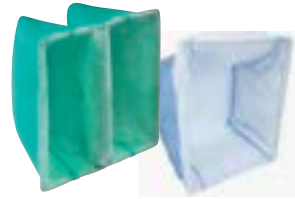

- Superior gas & odor adsorption
- Low pressure drop
- Great particulate efficiency
- Multiple efficiencies and carbon weights

Paint Spray Booth

Dust Pad
High Capacity
Efficiency G4 EN779

- Removal efficiency
- Available in pads, blankets and rolls
- Excellent paint holding capacity
- Exceptional value for high volume operations

Pocket Dust Pad
High Capacity
Efficiency G4 EN779

- Pocket and cube styles extend filter life and efficiency
- Superior paint holding capacity
- High efficiency helps reduce emissions

Poly U-Pad
Washable Pad
Efficiency G2/ G4 EN779

- Designed for maximum Mechanical Strength
- Washable
- Poly Uretane Media
- Unaffected by moisture and humidity

Carbon Pad
Efficiency G2EN779

- Impregnated carbon Activated pad
- Prevents Odor migration
- Non flammable
- Exceptional performance

Dust Pad
High Capacity
Efficiency M6 EN779

- 5 styles available: 200, 300, 400, 550 and 600
- Self sealing design
- Excellent for high moisture
- Slip on sleeves available

Card Pleat
Over Spray CardBoard Separator
Arrestance 98% EN779

- The V-shaped front prevents particle migration
- 75/90/100 cm Size
- Excellent for Over Spary

Pads & Rolls

Dust Pad
High Capacity
Efficiency G2 EN779

- High dust holding capacity
- Wide range of pad and roll sizes
- Pre cut pads or bulk rolls

Aero Pad
Polyester Media
Efficiency G2 EN779

- Designed to meet/exceed specifications
- Flame retardan
- Roll filter media
- Low Pressure Drop

Disposable Filters

Glass Pad
High Capacity
Efficiency G2 EN779

- High temperature
- Non Inflammable
- Special sizes available
- Easy to install

Filter Fit Cartridges

Filter Fit For Turbines Cross to Donaldson, CamFil, AAF, other High Efficiency F8-F9 EN779

- High performance media options
- Multiple sizes and media configurations
- Durable construction
- Multiple core and cap options
- High moisture resistance

Turbines Filters

Panel Rigid AS-XP
High Capacity
Efficiency M6-F7-F8-F9 EN779

- Single, Double Heaters
- Durable metal frame
- Performs in systems up to 2500 cfm
- Offshore application Available

Muti Bag MB-GSH / GSL
High Capacity
Efficiency M6-F7-F8 -F9 EN779

- Stiff pocket filter
- Remove dust, smoke vapors/bacteria
- Low pressure drop
- Durable construction

Frames and Housings

HEPA Box
Modular Housing
Steel and Stainless Steel

- Versatile line of Air Filter Housings Box designed for easy installation into original equipment and retrofit filtration systems.
- Standard housings are constructed of 16 gauge steel and can be manufactured to meet specifications in ASHRAE or HEPA applications.
- A wide variety of optional features and housing depths.

FIL Frame
Modular Steel Frame
Steel and Stainless Steel

- Designed for simple and cost-effective construction of filter banks.
- 16 gauge galvanized steel components. Each frame is equipped with gaskets to provide protection against air bypass. Pre-punched holes in the sides of the frame make filter bank construction easy and trouble-free.

Venefilter..Your Best Solution in Air Filtration

Whether you're in the commercial, industrial, hospital, gas turbine, or paint filtration sector, look no further than Venefilter. We proudly offer a complete line of air filtration products tailored to meet your specific needs. With our exceptional quality and performance, we ensure clean, healthy air in your environment.

Choose Venefilter: Your Partner in Filtration Efficiency and Savings

Trust Venefilter for cutting-edge solutions that maximize efficiency, extend filter life, and save costs. Contact us today to unlock the full potential of your filtration systems.
